*Opportunities for all children to develop concepts and skills that will lead to a successful school experience and desire to learn!*

Kinderhaven's curriculum is influenced by Reggio Emilia where children learn all about the things they are most curious about. They stay really engaged! Kinderhaven's emphasis on 'compassion projects' understands and values the differences kids can make in the lives of others. It is a fantastic and unique school and we are thrilled our daughter is enrolled.

## KINDERHAVEN, TAKE TWO!

This is a class of fun and exploration, which allows students to get more in depth with distinct subject areas, like science, art, literature, geography, history and much more! Developed around the Reggio philosophy carried out in the preschool, the children's interests will spark exciting and fascinating projects! Have your child bring a peanut free snack and his/her lunch for a morning of fun! For more information, please contact Dr. Penny Robbins, Kinderhaven Preschool Academy Director, at 847-810-3947.

## BEYOND THE FAIRY TALES

The Three Little Pigs takes on a whole new understanding when you look at how a brick house is really made! This class will take a closer look at the elements within the stories by exploring things like what porridge really is and how its made, whether the sky is capable of really falling, and how people really sleep deeply. Your child will have a chance to dig deep and learn more about all of the great and fun things that make up a fairy tale. The class may also actually write their own fairy tale and act it out! Please send a peanut free sack lunch and drink to class with your child. For more information please contact Dr. Penny Robbins, Kinderhaven Director, at 847-810-3947.
