### Assessment Notices

As a courtesy, the City provides notification to Lake Forest residents when assessment notices have been mailed out by Lake County. These notices, also commonly referred to as “blue cards”, are sent out to notify property owners of assessment value changes. The mailing of assessment notices initiates a very brief appeal period of only 30 days. Assessment value changes are also published in the newspaper.

Please visit the Lake County web site for [more information](#).

In addition, Lake County conducts various tax assessment help centers to assist residents in understanding their property assessment. Dates and locations for these help centers are not yet available.
